OPTIONAL LOOP

Upload one image to start

Reverse Engineering creates the prompt. If you are not satisfied, Loop Engineering uses the exact same uploaded image—no second upload required.

02

Customization

Enter the prompt manually and change only what you request

LOCK RULE

Only the requested change is allowed. Preserve everything else.

Existing prompt

Customization request

Generate Customization

No image upload is required. The prompt is the input. If you dislike the result, use Customize Again with the latest generated image.

MASTER PROMPT

When you already know what image you want to generate

Use this feature to expand a rough prompt into a clear, detailed and generator-neutral Master Prompt.

Prompt-only architecture · OpenRouter free vision/LLM · No image generation in this tool.
